

LONG RANGE PLANNING COMMITTEE MEETING MINUTES

NOVEMBER 3, 2016

Attendees: Ken Mc Kinney, Larry Nalducci, Ted McDermott, Jim Wiley

Chairperson: Dolly Syrek attended.

Not in attendance: Herb Mais, Judith Lackland

Items for discussion:

1. Investigate alternate water source for Riverwood as the County could be strapped for potable water.
2. Create a map or list of all property that abuts Riverwood i.e. Parcel C. our borders are not secure and there have been break-ins in Stonebridge, Eagle Trace, Royal Oaks and Silver Lakes. Some of the lots on Risely Ave. would have a golf course view and ponds. This could be purchased by a developer and we won't know what will be built.
3. Stillwater Trace wanted to erect a fence and pay for it themselves. Check this out.
4. Fishing lots – Myakka Point to Tarpon Harbor and Tarpon Harbor II 2 lots are under water. Find out who owns these lots.

Larry Nalducci requested that we make this committee and audience as well as residents apprised of the Campus Upgrade. Larry feels it is taking too long.

Dolly Syrek: I am Chair of the Ad Hoc Committee and will be glad to give you an update on our progress. After giving the update, Dolly referred Larry to the website as there are 2 updates posted there to keep the Residents informed.

5. Dolly to put on the CDD agenda a request for this committee to remain at seven members as this number works well.
6. Ted Mc Dermott will bring his map of Riverwood to the next meeting for all to review as to the parcels that abut Riverwood.

Motion was made to adjourn the meeting was made by Jim Wiley and seconded by Larry Nalducci.
