

AD HOC COMMITTEE PROGRESS REPORT FOR THE PROPOSED ACTIVITY CAMPUS UPGRADE PROJECT

It is the desire of the Riverwood CDD to keep our Residents informed of our ongoing progress. The Ad Hoc Committee, which is comprised of residents with varying backgrounds in construction and finance, has completed the following:

1. A comprehensive Request for Proposal document to be used by interested construction firms.
2. Advertised in trade and local publications and
3. An on-site review for firms indicating interest will be conducted within the next week.

The Committee has also created focus groups to examine major segments of the project and these groups will present viable options to the full Ad Hoc committee. These options will be discussed with construction planning parties when engaged by the CDD.

Overall Project schedules and costs will be finalized and communicated as the construction team comes on board.

The Ad Hoc Committee meets on Thursdays @ 10:00 a.m. all residents are welcome to attend.
