Section 1.1 General.

- A. The Riverwood Community Development District (the "District") was created pursuant to the provisions of Chapter 190, Florida Statutes and was established to provide for the ownership, operation, maintenance, and provision of various capital facilities and services within its jurisdiction. The purpose of these rules (the "Rules") is to describe the general operations of the District.
- B. Definitions located within any section of these Rules shall be applicable within all other sections, unless specifically stated to the contrary.

Specific Authority: §§ 190.011, 120.53(4)(a), Fla. Stat.
Law Implemented: §§ 190.011(5), 120.53(4)(a), Fla. Stat.

Section 1.2 Board of Supervisors; Officers and Voting.

- A. Board of Supervisors. The Board of Supervisors of the District (the "Board") shall consist of five (5) members. Members of the Board must be residents of the State of Florida and citizens of the United States. The Board shall exercise the powers granted to the District.
- B. Term of Officers. Board members shall hold office for the term specified by Section 190.006, Florida Statutes. If, during the term of office, any Board Member(s) vacates their office, the remaining member(s) of the Board shall fill the vacancies by appointment for the remainder of the term(s).
- C. Vacancies: Quorum. Three (3) members of the Board physically present at the same location shall constitute a quorum for the purposes of conducting business and exercising its powers and for all other purposes. However, if three (3) or more vacancies occur at the same time, a quorum is not necessary to fill the vacancies. Action taken by the Board shall be upon a majority vote of the members present, unless otherwise provided in the Rules or required by law. Members of the board, as well as staff or employees of the District may be present by telephone, provided that the quorum is present at the meeting location and that such telephone attendance is accomplished by speaker-so that all present may hear and respond to the comments of the party attending by telephone. Nothing herein shall require the district to permit members of the public to attend a meeting by telephone.
- D. Officers. At the first Board meeting after each election, the newly-elected Board members shall take office. To the extent practicable, at this meeting the Board shall elect a chair and a secretary, and may elect such other officers as the Board deems necessary, including a Vice Chair, Treasurer, Assistant Treasurer, and Assistant Secretary. The Chair and Vice Chair shall be members of the Board, but other officers need not be.
 - 1. The Chair must be a member of the Board. If the Chairman resigns from that Office or ceases to be a member of the Board, the Board shall select a Chair, after filling the board vacancy. The Chair may be authorized to sign checks and warrants for the district, countersigned by the treasurer or other persons authorized by the board. The chair may convene and conduct all meetings of the Board. In the event the chair is unable to attend a meeting, the vice chair or other member of the Board may convene and conduct the meeting.

2. The Vice Chair shall be a member of the Board and shall have such duties and responsibilities as specifically designated by the Board from time to time. If the Vice Chair resigns from that office or ceases to be a member of the Board, the Board shall select a Vice Chair to serve the remainder of the term, after filling the Board vacancy.
 3. The Secretary of the Board serves at the pleasure of the Board and need not be a member of the board. The Secretary shall be responsible for maintaining the minutes of Board meetings and may have other duties assigned by the Board from time to time. The District Manager may serve as Secretary.
 4. The Treasurer need not be a member of the Board but must be a resident of Florida. The Treasurer shall perform duties described in Section 190.007(2) and (3), Florida Statutes, as well as those assigned by the Board from time to time. The Treasurer shall serve at the pleasure of the Board.
- E. Committees. The Board may establish committees of the Board, either on a permanent or temporary basis, to perform specifically designated functions. Committees may include individuals who are not members of the Board. Such functions may include, but are not limited to, contract negotiations, personnel matters, and budget preparation.
- F. Record Book. The Board shall keep a permanent record book entitled "Record of Proceedings of the Riverwood Community Development District", in which shall be recorded minutes of all meetings, resolutions, proceedings, certificates, bonds given by all employees and corporate acts.
- G. Meetings. The Board shall establish a schedule of regular meetings and may also meet upon call of the chair or three board members. Nothing herein shall prevent the Board from holding other meetings as it deems necessary or from canceling any regularly scheduled meetings. A previously noticed regular meeting may be canceled, provided the notice of cancellation shall be given in substantially the same manner as notice for the meeting or in such other manner as may provide substantially equivalent notice of cancellation. All meetings of the board shall be open to the public and governed by the provisions of Chapter 286, Florida Statutes.
- H. Voting Conflict of Interest. The Board shall comply with Section 112.3143, Florida Statutes, so as to ensure the proper disclosure of conflicts of interests on matters coming before the Board for a vote. For the purposes of this section, "voting conflict of interest" shall be governed by Chapters 112 and 190, Florida Statutes, as amended from time to time.

When a Board member knows that he/she has a conflict of interest on a matter coming before the Board, the member should notify the Board's Secretary prior to participating in any discussion with the Board on the matter. The member shall publicly announce the conflict of interest at the meeting. This announcement shall appear in the minutes of the meeting. The Board's secretary shall prepare a memorandum of voting conflict which shall then be signed by the Board member that had the conflict.

- G. Continuances. Any meeting of the Board or any item or matter included on the agenda or coming before the board at a noticed meeting may be continued for a meeting without re-notice or re-advertising provided that the continuance is to a specified date, time and location publicly announced at the meeting where the item or matter came before the Board. The notice must state the procedure for requesting a public hearing on the proposed rule unless one is otherwise scheduled. Except when intended action is the repeal of a rule, the notice shall include a reference both to the date on which and to the place where the notice of rule development appeared.

Prior to the adoption of an emergency rule, the District Manager shall make reasonable efforts to notify a newspaper of general circulation in the District. Notice of emergency rules shall be published as soon as possible in a newspaper of general circulation in the District. The District may use any procedure which is fair under the circumstances in the adoption of an emergency rule as long as it protects the public interest as determined by the District and otherwise complies with these provisions.
- H. Variances and Waivers. Variances and waivers from District rules may be granted subject to the provisions and limitations contained in Chapter 120, Florida Statutes.

Specific Authority: §§ 190.011(5), 190.011(15), 120.54, 190.035, Fla. Stat.

Section 2 Bidding and Related Rules

Section 2.1 Procedure Under Consultants' Competitive Negotiations Act. In order to comply with the requirements of Section 287.055, Florida Statutes (regarding certain types of professional services), the following procedures are outlined for selection of firms or individuals to provide professional services exceeding the thresholds herein described and in the negotiation of such contracts.

A. Definitions.

1. "Professional services" means those services within the scope of the practice of architecture, professional engineering, landscape architecture or registered surveying and mapping, as defined by the laws of Florida, or those performed by any architect,

professional engineer, landscape architect or registered surveyor and mapper, in connection with the firm's or individual's professional employment or practice.

2. "Project" means that fixed capital outlay study or planning activity when basic construction cost is estimated by the District to exceed the threshold amount provided in Section 287.017, Florida Statutes, for CATEGORY FIVE, or for a planning study activity when the fee for professional services is estimated by the District to exceed the threshold amount provided in Section 287.017 for CATEGORY TWO, as such categories may be amended from time to time by the State of Florida Department of Management Services to reflect inflation or other measures.
3. A "continuing contract" shall be as defined in Section 287.055, Florida Statutes.
4. "Emergency purchase" is a purchase necessitated by a sudden unexpected turn of events (e.g., acts of God, riot, fires, floods, hurricanes, accidents or any circumstances or cause beyond the control of the Board in the normal conduct of its business) where the Board decides the delay incident to competitive bidding would be detrimental to the interests of the District.

B. Qualifying Procedures. In order to be eligible to submit a bid, a firm must, at the time of receipt of the bid:

1. Hold all required applicable state professional licenses in good standing.
2. Hold all required applicable federal licenses in good standing, if any.
3. If the bidder is a corporation, hold a current and active Florida corporate charter or be authorized to do business in Florida in accordance with Chapter 607, Florida Statutes.
4. Meet any prequalification requirements set forth in the project or bid specifications. Qualification standards may include but are not limited to, capability and adequacy of personnel, past record, and experience of the bidding entity.

Evidence of compliance with this Rule may be submitted with the bid, if requested by the District.

C. Public Announcement. Prior to a public announcement that professional services are required for a project, the Board shall identify the project as meeting the threshold requirement. Except in cases of valid public emergencies as certified by the Board, the District shall announce each occasion when professional services are required for a project by publishing a notice providing a general description of the project and the method for interested consultants to apply for consideration. The notice shall appear in at least one newspaper of general circulation in the District and in such other places as the District deems appropriate. The District may maintain lists of persons interested in receiving such notices. These persons are encouraged to submit annually statements of qualifications and performance data. Persons who provide their name and address to the District office for inclusion on the list shall receive notices by mail. The Board has the right to reject any and all bids, and such reservation shall be included in the public announcement. Bidders not receiving a contract award shall not be entitled to recover any costs of bid preparation or submittal from the District.

D. Competitive Selection.

1. The Board shall review and evaluate the data submitted in response to the notice described above regarding qualifications and performance ability, as well as any statements of qualifications on file. The Board shall conduct discussions with, and may require public presentation by, no fewer than three firms regarding their qualifications, approach to the project, and ability to furnish the required services., The District shall then rank the firms, in order of preference, deemed to be the most highly capable and qualified to perform the required professional services, after considering these and other appropriate criteria:
 - a. The ability and adequacy of the professional personnel employed by each firm.
 - b. Each firm's past record, experience, and performance for the District in other professional employment settings.
 - c. The willingness of each firm to meet time and budget requirements.
 - d. The geographic location of each firm's headquarters or office in relation to the project.
 - e. The recent, current and projected workloads of each firm.
 - f. The volume of work previously awarded to each firm.
 - g. Whether a firm is a certified minority business enterprise.
2. Nothing in these rules shall prevent the District from evaluating and eventually selecting a firm, if less than three responses, including responses indicating a desire not to submit a formal bid on a given project, are received.
3. If the selection process is administered by any person other than the full Board, the selection made will be presented to the full Board with a recommendation that competitive negotiations be instituted with the selected firms in order of preference listed.

E. Competitive Negotiation.

1. After the Board has authorized the beginning of competitive negotiations, the District may begin such negotiations with the firm listed as most qualified to perform the required professional services.
2. In negotiating a lump-sum or cost-plus-a-fixed-fee professional contract for more than the threshold amount provided in Section 287.017, Florida Statutes, for CATEGORY FOUR, the firm receiving the award shall be required to execute a truth-in-negotiation certificate in accordance with Section 287.055, Florida Statutes, and the contract shall include any provisions as may be required by Section 287.055, Florida Statutes.
3. Should the District be unable to negotiate a satisfactory agreement with the firm determined to be the most qualified at a price deemed by the District to be fair, competitive and reasonable then, unless modified by the Board, negotiations with that firm shall be terminated and the District shall immediately begin negotiations with the second most qualified firm. If a satisfactory agreement with the second firm cannot be reached, those negotiations shall be terminated and negotiations with the third most qualified firm shall be undertaken.

4. Should the District be unable to negotiate a satisfactory agreement with any of the selected firms, additional firms shall be selected by the District, in order of their competence and qualifications. Negotiations shall continue, beginning with the first-named firm on the list, until an agreement is reached or the list of firms is exhausted.
- F. Continuing Contract. Nothing in this Rule shall prohibit a continuing contract between a firm or an individual and the District.
- G. Emergency Purchase. The District may make an emergency purchase without complying with these Rules. The fact that an emergency purchase has occurred or is necessary shall be noted in the minutes of the next Board meeting.

Specific Authority: 190.011(5)
Law Implemented: 190.011(3), 287.055, 190.033

Contracts for purchases of "goods, supplies or materials" do not include printing, insurance, advertising or legal notices.
- B. Definitions.
 1. "Invitation to Bid" is a written solicitation for sealed bids with the title, date and hour of the public bid opening designated specifically and defining the commodity involved. It includes printed instructions prescribing conditions for bidding, evaluation criteria, and provides for a manual signature of an authorized representative.
 2. "Request for Proposal" is a written solicitation for sealed proposals with the title, date and hour of the public opening designated and requiring the manual signature of an authorized representative. Section 3.13 Inspections of Consumer's Installation: The District reserves the right to inspect and approve any consumer installation prior to providing service and from time to time thereafter to ensure compliance with applicable laws, rules of the District, and rules and regulations affecting such installation. No changes or increases in any consumer installation which will materially affect proper operation of District utility system shall be made by consumer without express written consent of the District Engineer and approval of the District Manager. Consumer shall be responsible for the cost of making changes or repairs resulting from unauthorized alteration, and the District may require payment or reimbursement thereto as a condition to continued service.

Section 3.14 Protection of District Property: In the event of any damage to the District property located upon consumer's property which arise out of any act of consumer or agent's, employees or independent contractors on the premises, the cost of repairs or replacement shall be the responsibility of the consumer, and full payment or reimbursement to the District therefore may be condition imposed by the District for the continuation of service.

Customer deposits shall be applied to balances due as provided herein. Insufficiency of deposits to cover delinquencies or final charges upon termination of service at any consumer location shall, as to any applicant for service at such location, be governed by Section 3.5 (Withholding Service) herein. As a convenience to consumers, District will accept telephone notice to discontinue or transfer service, provided written notice is given to the District within seventy-two (72) hours thereafter. Consumer may request a temporary discontinuance of service, and the District will charge a turn-off and turn-on fee as provided in Section 4.

Section 3.16 Resumption of Service: After termination or discontinuance of service as provided herein, the District may require, as a condition precedent to service resumption, payment in full of any amounts due the District and/or adequate security in the form of additional deposits to cover all costs reasonably incurred by the District as the result of such termination or discontinuance, including any reconnection fees, meter installation or removal and reinstallation costs, inspection costs, or other costs incident thereto in accordance with the District's schedule of fees and costs as provided in Section 4.

Consumer shall be responsible for maintaining all on site facilities in proper repair, and shall not alter or modify any interconnection of service without first notifying District and securing approval thereto in writing or by permission from an authorized representative of District's utility department. Unauthorized alteration or modification of any on site utility service interconnection may result in immediate

termination of the affected service and repair restoration by District or at its direction at the consumer's costs.

Section 3.19 Wastewater Holding Tank Treatment Alternatives and Recommendations.

- A. Holding tank treatment additives shall not contain formaldehyde or formaldehyde type ingredients. The formaldehyde has a negative effect on the biological treatment process in the system. The beneficial bacteria that breaks down the sewage is killed by the formaldehyde.
- B. The use of a biological treatment process or product, such as AI 40 BIOFRESH provided by Aurora International or a compatible product, is required. Biological treatment is being utilized in other segments of the system to control odor.
- C. The District encourages the use of reasonable amounts of additional water, during the dumping process, to help dilute the concentrated wastes being retained in the RV holding tanks.
- D. The District encourages more frequent dumping of the holding tanks to reduce the age of sewage leaving the park. Adding additional water to the holding tanks prior to use during the holding period will help facilitate this effort.
- E. The District encourages new visitors or returning residents to dump their holding tanks prior to arrival.

Section 3.20 Testing and Inspections.

The District may conduct random tests and inspections of the sewage in the system to observe and detect the presence and level of the following: Formaldehyde, Hydrogen Sulfide, Soaps.

The maximum allowable limits of the above mentions characteristics shall be as follows:

Formaldehyde	0 mg/L
Hydrogen Sulfide	5 mg/L
Soaps	**

** Excessive discharge of soaps and soap products into the sewer system produces undesirable frothing and foaming in the treatment plant.

Section 3.21 Compliance. If at any time Consumer shall not comply with the restrictions imposed upon it in the preceding portions of this Rule, or if Consumer shall create any condition which District should determine destructive to any part of District's facility, District shall give thirty (30) days written notice to Consumer to discontinue such operation or practice, within which period Consumer shall comply. If Consumer does not initiate and/or establish a compliance program within thirty (30) days of notification, and/or if any damages result from the discharge of improper wastes by Consumer, District reserves the right to provide such preliminary treatment facilities or establish such programs as required to bring the Consumer's discharge into compliance. Consumer will be responsible to the District for all charges, both capital and operational for the establishment of these programs or facilities as described herein. Any and all damages resulting from Consumer's non-compliance with this rule shall be the responsibility of the Consumer.

No statement in this Rule shall be construed as preventing any special agreement or arrangement between the District and the Consumer whereby an industrial waste or unusual

strength or character may be accepted by the District for treatment, subject to additional payment by Consumer.

On notification to Consumer, the District shall have the right at any time to collect samples of sewage and industrial wastes at various locations within Consumer's facilities for the purpose of making laboratory analysis of these wastes. The costs of collecting and of testing such samples shall be considered a District facility treatment and effluent disposal operating expense.

Consumer shall adopt, enact, and enforce such policies and procedures adopted by the District as may be required to insure that users of Consumer's system do not discharge or cause to be discharged waters or wastes which would cause Consumer's wastewater to be unacceptable under the provisions of this Rule, and to furnish to the District certified copies thereof within thirty (30) days from date hereof. The District will, if requested, assist Consumer in the preparation of said policies and procedures.

Section 3.22 Meters: Each consumer of the District receiving water must have a water meter which measures flow and which is the ultimate basis for water charges. All water meters shall; be furnished by, to and subject to its control. Meters are not transferable to another residence or business site. The consumer shall provide meter space to the District at a suitable and readily accessible location and when the District considers it advisable, within the premises to be served, adequate and proper space for the installation of meters and other similar devices. Before a meter is installed, all meter fees, deposits, AFPI charges and connection fees being due must be paid. Consumers may have separate meters for irrigation purposes only. The meter to be furnished by the District shall be sized compatible with the existing line and main sizes according to District standards and specifications at the consumers' expense. The consumer shall be required to provide proper service connection and service line in accordance with the District standards and specifications. Meter sizes, other than those originally specified or intended, shall be as approved by the District Engineer and the District Manager.

Section 3.23 All Water Through Meter: That portion of the consumer's installation for water service shall be arranged so that all water service shall pass through the meter. No person shall make or cause to be made any connection or main, service pipe, or other pipes, appliances or appurtenance used for or in connection with the District's water system in so manner as to cause to be supplied water from such plant to any faucet or other outlet whatsoever without passing through a meter provided by the district and used for measuring and registering the quantity of water passing through the same, or make or cause to be made, without consent of the District, any connection with any such plant or any main, pipe service or other instrument or appliance connected with such plant in such manner as to take or use, without the consent of the District, any water.

Section 3.24 Meter Testing: The District reserves the right to remove the meter and check, repair, or replace it at any time at no cost to the consumer. Should a consumer desire his meter to be checked at any time, he may have this work done by submitting a written request accompanied by a fee in accordance with the rate schedules of the District in effect at the time of such testing. Should the meter be tested and found to be registering over two (2%) percent more than is actually used, the last three months service bill will be adjusted accordingly, the meter will be repaired or replaced , and the fee returned. In any other case, the amount of the fee shall be retained by the district to defray the cost of testing.

Section 3.25 Damaging, Tampering with, Altering, Facilities of Utility Plant or System: No person shall; damage or knowingly cause to be damaged any meter or water or sewer pipe or fittings connected with or belonging to a District water or sewer system, or tamper or meddle with any meter or other appliance or any part of such system in such a manner as to cause loss

or damage to the District to prevent any meter installed for registering water from registering the quantity which otherwise would pass through the same; alter the index or break the seal of any such meter; in any way hinder or interfere with the proper action of just registration of any such meter, pipe or fitting or other appliance or appurtenance connection with or belonging to such system after such meter, pipe fitting, appliance or appurtenance has been tampered with, injured or altered.

Section 3.26 Private Fire Service Connection: A private fire service connection is to be used for fire purposes only and is to have no connection whatsoever with any service lines that may be used for other than fire purposes, and because of the danger of pollution, shall have no connection with any other source of supply with the exception in case a tank or fire pump is installed as secondary supply. There shall be a backflow preventer installed by the consumer at his expense in each District connection to prevent the water from secondary supplies from flowing into District mains.

The consumer shall not draw any water whatsoever through this connection for any purpose except the extinguishing of fires, or for periodic tests of the fire system, which tests shall be made in the presence of a representative of the District. Any authorized representative of the District shall have free access to the building at any reasonable time for the purpose of inspecting any equipment.

The consumer shall set in this connection at the point of delivery, a weighted check valve fitted with by-pass on which shall be set a meter, installed by the District at consumer's expense, the purpose of which shall be to indicate whether or not water is being used through this connection and for the further purpose of showing any leakage, if same exists. All meters shall become the property of the District.

Violation by the consumer of any of the regulations in this section shall justify the district to disconnect said pipe or pipes, or stop the flow of water through same.

The right is reserved by the District to shut off the supply at any time in case of accident or to make alterations, extensions, connections, or repairs and if possible, the District agrees to give due and ample notice of such shut-off.

The District does not make any guarantee as to certain pressure in the pipe or in the main supplying same, and shall not be under any circumstances held liable for loss or damage to the owner for a deficiency or failure in the supply of water in case of accident or alteration, extensions, connections or repairs, or for any cause whatsoever.

When fire lines valves or connections are used in case of fire or for any other reason whatsoever, the consumer shall immediately notify District and the District forthwith reseal the used valves or connections.

Section 3.27 Termination of Service:

A. All utility service shall be pursuant to proper permit or application, which procedure accords the District the opportunity to provide for orderly expansion of facilities and regulation thereof in a manner calculated to ensure continuous service to all consumers. Inherent in this obligation is the governmental prerogative of necessity to terminate consumption which is adverse to the continuous, orderly and uninterrupted operation and maintenance of its utility service. Accordingly, the District reserves the right by unilateral act in its sole discretion, to refuse service, or to terminate service temporarily or to discontinue service in all instances when conditions exist which would constitute an emergency of public concern, or when the

providing of any service would constitute a threat to the safety, health or welfare of consumers generally or a significant portion of the consumer population.

- B. When discontinuance or termination of service can be remedied by an act of the consumer, District shall provide notice of remedial action to the consumer in order that service may be continued uninterrupted. The District shall have the authority to interrupt, discontinue, or terminate service, for any of the following reasons, after consumer has been notified and has failed to take the prescribed remedial action:
 - 1. Failure to pay required deposits for service.
 - 2. Failure of consumer to meet provisions of agreements with the District.
 - 3. Failure to correct deficiencies in piping or other components upon consumer's property after reasonable notice thereof.
 - 4. Use of service for any property or purpose other than described in the permit or application.
 - 5. When requested by consumer, in which case resumption of service shall be accomplished in accordance with District policy as herein provided.
 - 6. Failure to pay user fees for service rendered.

- C. If the District disconnects potable water or irrigation water service due to consumer's failure to take remedial action as described above, the consumer shall be charged a disconnect fee and a reconnect fee, as described in Section 4, in addition to payment of any delinquent fees and charges due. If the District disconnects sanitary sewer service due to consumer's failure to take remedial action as described above, the consumer shall be required to reimburse the District for all of its expenses in disconnecting and reconnecting sewer service, including any administrative costs and reasonable attorney's fees incurred, in addition to payment of any delinquent fees and charges due.

- D. The District reserves the right by unilateral act in its sole discretion to refuse service, terminate service temporarily, or to discontinue service without notice under the following circumstances:
 - 1. Causing, or allowing to exist, a hazardous condition with respect to the location, use of, or access to any utility service or component.
 - 2. Alteration or modification of any transmission or metering component or device used in providing any utility service to the consumer.
 - 3. Total or partial destruction of, or abandonment or, any structure, including any vacancy for a duration which, in District's opinion, may create a hazardous or unsafe condition or constitute a nuisance.
 - 4. Unauthorized connection or use, as described in Section 3.7.

- E. Upon the occurrence of any of the above conditions, the consumer shall be required to remedy the condition to the satisfaction of the District, and shall reimburse the District for any costs or losses incurred by the District as a result of the condition or in repairing or remediating such condition, including lost revenue and monthly interest on the lost revenue (at the interest charge set forth in Section 4). In the event of an unauthorized connection or use, as described in Section 3.7, the consumer shall also be charged a penalty of \$500.00. If the District disconnects service for any of the above reasons, Consumer shall also be charged for disconnection and reconnection as described in Paragraph C. above. The District reserves the right to pursue any remedies it may have at law or equity in regard to any of the above conditions.

Section 3.28 Rate Schedule: The Schedule of Water and Sewer Rates, Fees and Charges is pursuant to Section 4. This Schedule may be amended from time to time by rule of the Board of Supervisors upon public notice and at least one public hearing.

Section 3.29 General. The District owns, operates and maintains water treatment and distribution and sewage collection, also treatment and disposal systems which serve residents within the District's service area. The adopted level of service for these facilities is 225 gallons per day per equivalent residential connection ("GPD/ERC"), and the District shall not make new service connections which would cause the District's system to exceed the adopted level of service. New development may require the extension of mains to provide service, as well as expansion of facilities to accommodate new development. In some instances, the District in anticipation of expansion of its system due to growth and development has already provided mains for services thereof. The cost of providing extensions, modifications and expansions of facilities is to be borne by property owners, builders, or developers within the District's service area to defray costs of these extensions, modifications, and expansions. The allocable share of each is to be charged as described herein. It is the declared policy of the District by this Rule to establish a uniform method of determining charges for availability of services so that all such contributions shall be non discriminatory among the various consumers served by the District's systems and shall be applied as nearly as possible with uniformity to all consumers within the District's service areas. District specifically reserves its rights to fix and determine rates, fees, charges and contributions required for the provisions, consumption, operation, maintenance, extension and expansion of its utility services provided herein and as authorized by law. Each consumer is hereby notified that the District, in the exercise of its governmental responsibility to provide for the welfare of all consumers of its utility services, has the authority and responsibility to amend its schedules of rates, fees charges, and contributions from time to time to ensure the perpetuation of service.

Section 3.30 Easements and Rights of Way: As a prerequisite to the construction of any water distribution or sewage collection system proposed to be connected to the facilities of the District, developer shall agree to grant District such easements or rights of way corresponding with the installation of the proposed facilities. Such grant or conveyance shall be in the form satisfactory to the District. Such conveyances, when located on the property shall be made without cost to the District. District reserves the right to require such easement or right of way to the point at which the meter is proposed to be installed or at the point of delivery of service, being the point at which the meter is proposed to be installed or at the point of delivery of service, being the point at which the facilities of District joins with consumers. Such easements and right of way shall be conveyed and accepted upon completion, approval and acceptance of the work done by the developer.

Section 3.31 Inspection: The District shall inspect the installation of all water distribution or sewage collection facilities installed by developer or developer's contractors, which facilities are proposed to be transferred to District's ownership, operation and control. In the event that gravity sewer facilities are to remain under ownership, operation and control of the developer as a private system, the district reserves the right to inspect installation of the gravity sewage collection facilities for the purpose of determining if the system has excessive infiltration. These systems must meet the same infiltration criteria as that of district owned systems. Such inspections are intended to assure that water and sewer lines and/or lift stations are installed in accordance with approved designs and are further consistent with the criteria and specifications governing the kind of and quality of such installation. Representatives of the District may be present at tests of component parts of water distribution or sewage collection systems for the purpose of determining that the system, as constructed, conforms to District's criteria for exfiltration, infiltration, pressure testing, line and grade. Such tests will be performed by

developer or developer's contractor, but only under direct supervision of the engineer of record or his authorized inspector. The results of such testing shall be certified at least 48 hours prior to any inspections or testing performed in accordance with these regulations.

Section 3.32 Transfer of Contributed Property - Bills of Sale: Each developer who has constructed portions of the water distribution and sewage collection system prior to interconnection with District's existing facilities, shall convey such component parts of water distribution and sewage collection system to District by bill of sale in form satisfactory to the district to ensure that the water distribution and sewage collection system proposed to be transferred to District is free of all liens and encumbrances.

Any facilities in the category of consumers' lines, plumbers' lines or consumer's installation, located on the discharge side of the water meter or on the consumer's side of the point of delivery of service shall not be transferred to district and shall remain the property the maintenance responsibility of developer or subsequent consumers.

District shall not be required to accept title to any component part of the water distribution or sewage collection system as constructed by developer until the District Engineer has approved the construction of said lines, accepted the tests to determine that such construction is in accordance with the criteria established by District and the Board of Supervisors has evidenced its acceptance of such lines for District's ownership, operation and maintenance.

Developer shall maintain accurate cost records establishing the construction costs of all utility facilities constructed by developer and proposed to be transferred to District. Such cost information shall be furnished to the District concurrently with the bill of sale and such cost information shall be prerequisite for the acceptance by District of the portion of water distribution and sewage collection system construction by developer.

District may refuse connection and deny the commencement of service to any consumer seeking to be connected to portions of the water distribution and sewer collection system installed by developer until such time as the provisions of this paragraph have been fully met by developer or developer's successors or assigns.

Section 3.34 Utility Inspection Fees: The cost of engineering inspection of the required improvements shall be paid by the developer at the time the D.E.P. application is executed by the District.

Section 3.35 Refundable Advances : The District may require, in addition to the contribution provisions set forth herein, a refundable advance by developer to further temporarily defray the cost of any off site extension of water and/or sewer mains and pumping stations necessary to connect the developer's property with the terminus of the District's water and sewer facilities adequate in size to provide service to the subject property . However, this rule recognizes instances in which a developer may be required to advance hydraulic share applicable to other undeveloped property in order that off site facilities may be constructed to serve the District's master plan. All amounts expended by developer, over and above developer's hydraulic share for offsite facilities shall be refunded to developer in accordance with terms and conditions of a refunding agreement which the District will execute with developer. The refunding agreement shall provide for a plan of refund based upon connection of other properties, to the extent of their hydraulic share, which properties will be served by the offsite facilities installed by the developer. Notwithstanding the provisions of this section , the District will limit the life of such refund agreement to a term of not more than five(5) years or until such time as the utility is sold to another entity after which time any portion of the refund agreement will have lapsed and thereafter, such refund agreement will be canceled. In no event shall developer recover and

amount greater than the difference between the capitalized cost of such offsite improvements and developer's own hydraulic share of such improvements. The District shall not include any interest upon the refund of developer's advance.

Section 4 WATER AND SEWER RATES, FEES, AND CHARGES . This Section shall be effective October 1, 2010, and the rates and fees contained herein shall be applied to the first billing after that date.
